About the Conference

Conference Objectives

The Conference on "Comparative Education and Teacher Training" is a regular international event organized by the Bulgarian Comparative Education Society and traditionally hosted by the Faculty of Primary and Preschool Education of Sofia University.

The Conference is purposefully planned to be a small and high-quality international event. The small conference format aims to give participants a friendly, homey and cozy environment providing excellent opportunities for contacts, presentations and discussions.

The overall goal of the conference is to focus academic discussions on the role of Comparative Education and new practices in teacher training.

The conference objectives are:

- 1) to examine different approaches to the role of Comparative Education as a science, research methodology, and academic discipline;
- 2) to develop linkages with colleagues who work in various teacher training programs at universities, colleges, and institutes around the world;
- 3) to outline prospects for the development of education policy and school reforms at the institutional, regional, national and international level;
- 4) to discuss new practices in life-long learning education and social inclusion.

BCES

The Bulgarian Comparative Education Society (BCES) was founded in Sofia in October 1991. Since March 1992 it has been a constituent member-society of the World Council of Comparative Education Societies (WCCES).

BCES focuses on:

- organizing conferences on comparative education
- doing comparative education studies
- coordinating international research projects
- supporting publications on problems of education
- organizing study visits to Bulgaria for foreign students and teachers
- publishing books on comparative and international education

BCES topics of special interest are:

- comparative education as a university discipline
- pre-service and in-service teacher training
- education policy at international, national, regional and local level
- new practices in preschool and primary education
- new practices in secondary education
- reforms in higher education
